Swedish Covenant Hospital,

Overview

Health care professionals today are faced with many regulations, responsibilities and standards. There are HIPAA regulations, professional codes of conduct/ethics, state practice acts and business conduct, just to name a few. So what is ethics, how do you determine if a problem is an ethical issue and how should we address and resolve ethical situations in our workplace? This presentation will review ethic principles and discuss tools and resources for ethical decision-making. Participants will put their knowledge to work and hone their new skills through case studies. Refreshments will be served.

This course is led by Eric Gluck, MD, FCCP, JD, and Claudia Ann Morehead, PT. Dr. Gluck is the medical director of the Swedish Covenant Hospital ICU and chairs the hospital's ethics committee. Claudia Ann is the senior director of rehabilitation services at Swedish Covenant Hospital and facilitates the resolution of ethical issues in clinical practice, business operations and professional behavior.
